

To whom it may concern:

I would like to have the opportunity to apply for the Graduate Privilege Partners Program. The achievements and personal development I have achieved are during my study in Hotel School, I have undertaken the Mentoring Scholarship Student which is the position that supervises the Food and Beverage outlet and instructs new students. Moreover, I have received the leadership role in Student Representative Council in the school that organized the school event and making decisions with all the other team members. These not only consent me to gain more leadership skills but also having more opportunities to work with others. It enables me to work in the fast-paced environment, it also allows me to provide outstanding customer service and having the strong cogitation of teamwork. The opportunities let me contribute myself into the team effectively and efficiently. The contribution is my continuous learning attitude, obligation, time management, teamwork, my enthusiasm and passion for the Guest Relations and Food and Beverage which I had been experienced working in the front office and the different role in F&B department in the hospitality industry. Additionally, I wish I could take these opportunities to gain more experience for myself and in the same time improving my valuable skills, the right attitude, motivation and personal qualities.

Furthermore, regarding the decision of studying in BMIHMS, I was wondering about the school system. However, after the research, I understand and realize that BMIHMS is not just the education institution. It is also committed to providing students the successful working life while giving them the pathway. They provide the opportunities and networks which considered as the benefit for the long-term vision for the students. Moreover, I understand Graduate Privilege Partners Program is a competitive recruitment program that connecting the highest achieving students with a select group of industry partners. It is the unique and special opportunity for the student who is looking for the opportunity in the hospitality industry after graduates. This includes the academic performance, practical skills training and industry experience and evaluation. In addition, I comprehend the process that building up the strong relationship between myself and the industry employers will ensure myself the future pathway toward success.

Likewise, having the abilities to manage the hotel is my future goal. I believe the Graduate Privilege Partners Program will support my objective and assist my future career. It provides not only the opportunities and connections with the hotel partner in the hospitality industry but also the pathway to constitute the relationship with the worldwide hotel brand. They are the industry employers which is recruiting the outstanding person to employ for the property that will be the way to reach my goal. Besides, it allows me to acquire more experience then improve the hospitality skills and attitude. Then I would like to contribute myself into the property. Also, to undertake the responsibility of Mentoring Scholarship Student and Student Representative Council requires personal confident which is also the requirement of the Graduate Privilege Partners Program that will be the exceptional method and goal for me to achieve.
